As Yoga grows in popularity some of it's true essence is lost. Strength, pace and power is emphasized, while the importance of gentleness, breath and stillness is dismissed as; 'not so important', 'not physically challenging', or 'gentle is for beginners'!

This experiential workshop will help you discover the richness of a gentle restorative yoga practice, foster the skills and techniques to teach it, and remind you that 'gentle yoga doesn't mean beginner yoga', in fact it provides space for a deeper understanding of the self and all that Yoga has to offer!

You will explore:

- Practicing gentle restorative yoga together
- The effective and safe use of props
- How to plan a gentle yoga class with and without the use of props
- Language and themes to keep it interesting
- The art of staying gentle
